ABOUT ME

I am an undergraduate student who is genuinely interested in web development and problem-solving. I enjoy learning new concepts, building useful things, and improving my skills through real-world experience. I'm looking for an opportunity where I can contribute to the team, grow professionally, and make a meaningful impact.

EDUCATION

Gandhi Matriculation Higher Secondary School
SSLC - 92.20 %   **2019 - 2020**

Gandhi Matriculation Higher Secondary School
HSC - 83.16 %   **2021 - 2022**

Bannari Amman Institute of Technology (B.E - ECE)
CGPA - 7.96 (Upto Semester 6)   **2022 - 2026**

PROJECTS

1. Apex Automation

Description: Developed an automated approval system for Apex requests, integrating faculty submissions, role-based access control, real-time notifications, and hierarchical approval workflows. The system significantly reduced manual workload and improved approval turnaround time within the institution.

2. Stray Dog Rescue & Adoption Platform

Description: Created a platform enabling stray dog rescue and adoption through user profiles, real-time updates, location-based searches, and complete adoption tracking. The platform enhances community participation and simplifies the process of connecting rescued animals with adopters.

SKILLS

Languages : Java, SQL, C, HTML, CSS
Tools : Figma, Canva
Soft skills : Time Management, Leadership & Teamwork, Adaptability and Communication

ACHIEVEMENTS

- Participated in the 5th International Conference on Emerging Trends in Engineering and Technology (ICETET 2023) and presented a paper titled "Artificial Intelligence in Precision Medicine."
- Published a journal paper in the International Research Journal of Education and Technology titled "A Platform for Stray Dog Rescue and Adoption."
- Led multiple Youth Red Cross (YRC) campaigns, including anti-plastic awareness, fire-safety education, and environmental seed-ball volunteering activities.
- Volunteered as a Verification Manager for the V-Prayukti event, ensuring smooth participant verification and efficient coordination throughout the event.
